GREENCITY ENERGY

Overview: Green city Energy is a social enterprise working with a mission to make India the world's most energy efficient country by 2030. We offer capital expenditure (CapEx)-free solutions by improving the overall design of energy intensive solar plant installation This comprehensive approach allows Green city to guarantee clients with handsome energy savings compared to their historical consumption levels.

Kannan G

Principal Consultant

A highly enthusiastic professional with extensive experience in energy auditing and a strong commitment to environmental protection as well as **CERTIFIED ENERGY AUDITOR by Bureau Of Energy Efficiency**. Specializing in energy efficiency, he is skilled in measuring energy consumption, identifying energy-saving opportunities, and conducting comprehensive energy audits across various sectors.

He delivers energy-efficient solutions for commercial and industrial facilities, with a proven track record of guaranteed savings for our clients

He successfully completed the innovative project "Fuel Atomization System" for internal combustion engines, which was recognized with the prestigious *Carbon Zero Challenge* award by IIT Madras.

Another notable project, "Energy Recovery from Rapid Load Reduction and Extreme Steam Pressure in Boilers" was selected for presentation at the CII Conference on Enhancing Energy Efficiency in Captive Power Plants.

He has conducted numerous energy audits for thermal power plants, commercial buildings, steel plant, Hospital, Pharma and HVAC systems. His portfolio includes creating tailored energy optimization strategies for industry leaders such as Dalmia, Godrej, Schneider Electric, JSW, OEG, Goa Sponge Ltd., ITC, Apollo Hospitals, ONGC, Aurolab and Tamil Nadu Cement Corporation Ltd.

Solution-1

100% CAPEX Free

Reduce your energy bills effortlessly

- ✓ We bear the entire investment and sign a 10-year contract with the customer
- ✓ After 10 years, the complete asset is transferred to the customer.
- ✓ During this period, we handle all maintenance and 60% of the networking costs.
- ✓ The customer pays less than ₹1/unit to us from energy bill, while also saving on maximum demand charges to customer. Customer not to pay demand charges to us.

Solution-2

50% CAPEX-Shared Model

Reduce your energy bills effortlessly

- ✓ We and the customer each invest 50% of the cost and sign a 10-year contract
- ✓ After 10 years, the complete asset is transferred to the customer.
- ✓ During this period, we handle all maintenance and 60% of the networking costs.
- ✓ The customer pays less than ₹3/unit to us from energy bill, and reduced maximum demand charges. Customer not to pay demand charges to us.

Solution-3

Guaranteed energy savings

Reduce your energy bills effortlessly

- ✓ This model involves full customer investment. We provide guaranteed energy savings, ensuring that if the project's payback period extends beyond 5 years, the customer will receive the balance of the principal amount.
- ✓ All maintenance and operations will be our responsibility during this time
